## STEIGER® TB 270 pro

With the development of the STEIGER® TB 270 pro, RUTHMANN has broken through the 18-m reach barrier in the 3.5-ton, STEIGER® TB(R) category. With a sensational 18.1 m, operators have 1.7 m of additional reach capacity, compared to the previous model. The lateral outreach of 15 m is another highlight. The vehicle is also more compact – 200 mm shorter to be exact – than its predecessor.

This reach champion is perfectly suited for rugged, everyday activities.

The TB 270 pro features unprecedented reach capabilities. The popular work platform easily exceeds the previous performance capacities and provides stability that cannot be found anywhere else in the industry.

-  Convinces by compact design and stability
-  Short overall length and low construction height for high manoeuvrability
-  **Proven chassis are available!**  
**High flexibility and easy handling.**

### VERSATILITY FOR EVERYONE

The new STEIGER® generation is attractive for diverse groups. It is a real novelty on the market promising you as customer maximum utilization rate and comfort for each field of application. All models can be driven with a class B driving license.
